Alternatively, you can use the letter here on page 2 as is.

Step 3 - Print or email the attached flyer to give your admin additional, at-a-glance information

*Print the flyer here on page 3, or [**CLICK HERE**](#) for a flyer to send via email.*

Professional Development Request

Dear administrator

In order to stay in line with best practice, I would like to participate in professional development to strengthen my center time routines, procedures, and instructional skills through developmentally appropriate practice. It has never been more important than now, as we know the impact a solid foundation can have on our students.

I am writing to request funding for an on-demand training called Supercharge Your Center Time.

This training walks you through the exact step by step process to get Free- Flowing Math and Literacy centers set up and running in the classroom. I will learn specific instructional strategies and gain resources to best support my students and their learning. The Free-Flowing Centers model has been successfully employed in Pre-K, Transitional Kindergarten and Kindergarten settings, and offers a structured yet flexible approach to classroom center management. My students will be able to spend more time learning while I spend less time managing behaviors.

It includes lifetime access to videos that guide educators through the following categories:

- The concept and benefits of free-flowing centers
- Steps for successful implementation
- Initial steps for introducing the model
- Strategies for rotating and refreshing centers
- Free-flowing centers in action
- Guidelines on student participation
- Aligning center activities with educational standards

This course will improve my confidence and ability to meet all students' needs and strengthen their learning, as well as our classroom community.

I am prepared to devote the time necessary to benefit from this high-quality training and implement what I learn in my classroom.

One time cost for enrollment: \$79 (group rates available)

Please see the attached flyer for more information.

Thank you for considering my request,

Supercharge Your Centers

The Free-Flowing Centers model, successfully employed in Pre-K, Transitional Kindergarten and Kindergarten settings, offers a structured yet flexible approach to classroom center management.

In this 2 hour training, teachers will gain insights into:

- The concept and benefits of free-flowing centers
- Steps for successful implementation
- Initial steps for introducing the model
- Strategies for rotating and refreshing centers
- Free-flowing centers in action
- Guidelines on student participation
- Aligning center activities with educational standards

Top 5 Benefits of Free-Flowing Centers:

Efficient time management • Enhanced flexibility in daily scheduling • Sustained student engagement • Opportunities for differentiation • Encourages autonomy and self-direction
