## **Professional Development Request**

In order to stay in line with best practice, I would like to participate in professional development and have access to resources to strengthen my teaching and help my students have the best early childhood school experience possible. It has never been more important than now, as we know the impact a solid foundation can have on our students.

I am writing to request funding for a school membership to a teaching site for Pre-K, Transitional Kindergarten, and Kindergarten Teachers called the Print and Play Club.

The Print and Play Club helps teachers transform their planning, teaching, classroom, and community by providing expert-created resources and training in one convenient place.

It includes access to:

- Hundreds of developmentally appropriate early childhood centers and resources
- A vault of engaging digital games and readers - both on-site and compatible with Google/Seesaw
- A Lesson Lab with video lessons and support for whole group and small group instruction
- Professional development for early childhood educators including best practice trainings and community support.

The Print and Play Club will improve my confidence and ability to reach all students and strengthen their learning.

I am prepared to devote the time necessary to use the high-quality and evidence-informed resources in the Print and Play Club and implement them in my classroom.

Cost for Annual Membership: \$249 (group rates available)

Please also see the attached flyer for more information.

Thank you for considering my request,
